Information Systems Development Student

portfolio-psi-five-n62vvv2jy8.vercel.app

PROFILE

Information Systems Development student with hands-on experience building web applications deployed in real environments. I currently administer and maintain an academic management system running in production at my educational institution. Particularly interested in backend development, software architecture, and competitive programming.

PROJECTS

SIA — Academic Information System

Jul 2025 – Present

Institutional project · IPMHU · Actively in production

Node.js · Express 5 · JavaScript · PostgreSQL · SQL Server · JWT · Jest · Helmet · PDFKit

- Built a multi-role academic management system (admin, teacher, student, coordination, guidance) currently running in production at IPMHU.
- Implemented JWT authentication with custom middleware, bcrypt password hashing, and rate limiting against brute-force attacks.
- Generated dynamic PDF reports with PDFKit and covered the API with automated tests using Jest + Supertest.
- Currently responsible for the administration and maintenance of the system in production.

Votech — Voting Platform

2025

Personal project · Tech Fair · ~500 live users with zero downtime

Node.js · Express · TypeScript · Supabase · JWT · bcrypt · CORS

- Developed a real-time voting platform used by ~500 people at a tech fair with zero failures during the event.
- Built the backend in TypeScript integrating Supabase as BaaS and designed a custom JWT authentication system from scratch.
- Set up environment-specific CORS and built a complete REST API with modules for projects, votes, and results.

ABOUT ME

- Regular Linux user (Fedora and Ubuntu Server) for development and system administration.
- Experience with Render for web application deployment and hosting.
- Ongoing interest in software architecture, system design, and development best practices.
- Active participant in academic competitions, debate, and sports activities.

TECHNOLOGIES

Frontend

React · HTML5 · CSS3 · JS · TypeScript

Backend

Node.js · Express · REST APIs · JWT

Databases

PostgreSQL · SQL Server · Supabase

Languages

JavaScript · TypeScript · Python · C++

Tools

Git · GitHub · Linux · Render · Jest

EDUCATION

Information Systems Design & Development

Inst. Politécnico Max Henríquez Ureña

2024 – 2028 · In progress

LANGUAGES

Spanish

Native

English

A2–B1 (Reading & Speaking B1)

ACHIEVEMENTS

- ODI 2025 — Dominican Informatics Olympiad
- Model United Nations (MUN) — Regional Level · Best Negotiation · Innovative Delegation
